

HILLS STREET GROUP

Providing Creative Solutions to
Injury Management,
Prevention & Rehabilitation.

ComCare Injury Management

What is it?

ComCare Injury Management is all about helping organisations and individuals to achieve a safe, timely and durable return to work for an injured employee.

Injury Management in your workplace can:

- Reduce costs associated with lost work time
- Minimise the impact of injury on Worker's Compensation Premiums
- Promote a safety culture in your workplace
- Maintain good business relationships with employees and insurers
- Raise staff morale
- Enhance quality of life for injured workers through pain reduction and functional restoration
- Control claims costs

Who is it for?

Individuals or organisations who currently have Workers Compensation through Comcare

Why Hills Street Group?

- Advocate Early Intervention to reduce number and severity of claims.
- Provide education on how to avoid an injury or stressful situation resulting in a full claim being lodged.
- 10 years experience in cost-effective professional injury management
- Nominated Preferred Provider of Workers Compensation Agents and Insurers
- Regional and Rural workplace specialists

What do I do?

If you have a workplace injury or insurance claim, or you have been nominated as a treating doctor or health professional - contact Hills Street Group to put the Injury Management process in place, quickly and easily.

Case Study

A serious vehicle accident left Kathy Johnson with multiple physical injuries. At discharge time, the local hospital rehabilitation unit referred Kathy to Hills Street Group to coordinate outpatient treatment.

Kathy's home modifications and Activities of Daily Living retraining were provided by Hills Street Group, along with a coordinated community support package. When the time came for Kathy to return to work, Hills Street Group assisted her government employer by developing a workplace based rehabilitation plan.

Six months after leaving hospital, Kathy had returned to her social, leisure and work activities. Early commencement of rehabilitation services had not only helped Kathy to regain normal function rapidly but also significantly reduced the cost of the claim to Comcare.

This is a fictional case study
